Street Railway and Bus Lines

The index letter shown in parenthesis after street descriptions or intersecting streets in the Street Directory refer to the nearest car line to that point. To find what car runs nearest to a given number, find the number in the Street Directory, and the letter given after the nearest intersecting street, indicates the car line in the following street railway routes.

Copyright, 1932, by R. L. Polk & Co.

A

Pennsylvania Street Line

From Union Station n on Illinois to Georgia, e on Georgia to Pennsylvania, n on Pennsylvania to Sixteenth, e on Sixteenth to Talbot, n on Talbot to Twenty-second. Returning cars via same route to Georgia, w on Georgia to Capitol av, s on Capitol av to Louisiana.

A1

Lexington Avenue Line

From Meridian and Georgia n to Maryland, e on Maryland to Virginia av, se on Virginia av to Pine, ne on Pine to Lexington av, se and e on Lexington av to Villa av. Returning same route to Pennsylvania and Maryland, s on Pennsylvania to Georgia, w on Georgia to Meridian.

B

Central Avenue Line

From Illinois and Washington n to Ohio, e to Massachusetts av, ne on Massachusetts av to Alabama, n on Alabama to Ft. Wayne av, ne on Ft. Wayne av to Central av, n on Central av to Thirty-fourth. In order to go n on Thirty-fourth take Central Av Car marked Meridian Heights. Returning on same route to Pennsylvania and Ohio, s on Pennsylvania to Washington, w on Washington to Illinois.

C

Alabama Street Line

From corner Washington and Illinois n to Ohio, e on Ohio to Massachusetts av, ne on Massachusetts av to Alabama, n on Alabama to Nineteenth. Returning same route to Massachusetts and Pennsylvania, s on Pennsylvania to Washington, w on Washington to Illinois.

POLK'S

INDIANAPOLIS

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1932

Copyright, 1932, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

By the decimal system of numbering houses adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at Washington street. The streets running east and west are numbered East and West from Meridian street. All other streets not commencing at either of the above points are numbered in accordance with this system. Even numbers occur on the north and west sides of streets and odd numbers on the south and east sides. The names of intersecting streets and avenues, printed in black, and placed to the right of the column are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 315 Bicking street; by reference to the Street Directory, you find Alabama intersecting at 300 and High at 350; consequently, the place you wish to find is between Alabama and High streets.

The index letter shown in parenthesis after street description or intersecting streets indicates the nearest car line to that point. To find what car runs nearest to a given number, refer to the street and number, and the letter given after the nearest intersecting street indicates the car line in the list of routes on preceding pages.

Th symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

INDIANAPOLIS ABATTOIR CORPORATION

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

INDIANAPOLIS ABATTOIR CORPORATION

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

INDIANAPOLIS ABATTOIR CORPORATION

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

INDIANAPOLIS ABATTOIR CORPORATION

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.
